**Audiology | Diagnostic | Screening | Tracking**

# Countdown to EUHA 2024

## In Germany, Hannover

Powered by German  
Engineering.

Innovating the World of  
Audiology!

**PATH MEDICAL** At EUHA 2024 in Hannover **16-18th October**, will showcase how our German locally crafted technology from portable to incredible portfolio is reshaping audiology on the global scale.

Here's what you can expect visiting our booths, #414 and #106 .

- **Audiology**

Explore our cost-effective and flexible solutions tailored to meet all your audiometry needs.

- **Screening, Simplified**

Whether it's our pocket-sized tympanometers or next-gen devices, you'll benefit from tools that are compact, powerful, and packed with cutting-edge tech to streamline your screening process.

- **QSCREEN**

A category by itself, the game changer in OAE ABR screening . Reveal the new features by its product manager with a live demonstration!

- **Diagnostics Revolutionized**

Our diagnostic suite goes beyond traditional testing, offering comprehensive solutions that empower you to diagnose hearing disorders with advanced tools and specialized tests that put precision at your fingertips. Try

Our VEMP module , Fast ASSR module live and figure out the new features in our Diagnostic ABR and much more.

- **Tracking**

Engage with our global experts for a case showcase of our intelligent solutions for tracking and telemedicine : the PATHTRACK and its perfect complement NHS Toolbox with its wide range of statistical reports.

- **Unlock the Future**

Curious about what's next? Don't miss the exclusive unveiling of our latest innovation—it's going to change the game in audiology!

**Join us at EUHA 2024 for a hands-on experience with the future of audiology—are you ready?**
